

The background features a dark blue gradient with a network of white nodes and lines. The nodes are connected by thin white lines, creating a complex web-like structure. In the lower half, there is a satellite-style view of Earth's surface, showing landmasses and oceans in shades of blue and white. The overall aesthetic is high-tech and digital.

Interim information on business performance in the third quarter of 2019

All figures in the statement of comprehensive income relate to continuing operations. All prior-year figures were restated in line with the changes as a result of the adoption of IFRS 16, Leases, from fiscal 2019 and the results of the FREP audit. The figures therefore cannot be compared to those in the financial reports of the previous year.

ALLGEIER ACHIEVES DOUBLE-DIGIT GROWTH IN REVENUE AND EBITDA IN FIRST THREE QUARTERS OF 2019

The Allgeier Group companies generated further growth in revenue and EBITDA in the first nine months of 2019 (January 1, 2019 to September 30, 2019).

Business performance in the third quarter of 2019

In the third quarter of 2019 (July 1 2019 to September 30, 2019), the Group reported an increase in revenue of 16% as against the same period of the previous year to EUR 203.5 million (previous year: EUR 175.6 million). Over the same period, value added (defined as total revenue less the cost of sales and staff costs directly attributable to revenue) rose by 25.3% to EUR 62.8 million (previous year: EUR 50.1 million) with a gross margin of 30.9% (previous year: 28.5%). Adjusted consolidated EBITDA for the period (EBITDA before extraordinary or prior-period effects) was up 41.9% on the figure for the previous year at EUR 22.1 million (previous year: EUR 15.5 million). This translates to an adjusted EBITDA margin of 10.9% (previous year: 8.9%). In total, adjusted extraordinary and prior-period effects amounted to EUR -3.2 million in the third quarter of 2019 (previous year: EUR -2.2 million). Including extraordinary

and prior-period effects, consolidated EBITDA for the third quarter amounted to EUR 18.9 million (previous year: EUR 13.3 million), an increase of 42% as against the same period of the previous year. Consolidated EBIT was up 62% at EUR 11.3 million in the same period (previous year: EUR 7.0 million).

Business performance in the first nine months of 2019

In total, consolidated revenue climbed by 16% as against the first three quarters of the previous year to EUR 584.2 million in the first nine months of 2019 (continuing operations in the previous year: EUR 503.2 million). Value added (defined as total revenue less the cost of sales and staff costs directly attributable to revenue) rose by 21% to EUR 168.9 million (previous year: EUR 140.1 million) with a gross margin of 28.9% (previous year: 27.8%).

Adjusted for extraordinary or prior-period effects, consolidated EBITDA grew by 22% to EUR 51.0 million (previous year: EUR 41.9 million). This figure includes extraordinary

and prior-period expenses of EUR 6.4 million, which have been adjusted in the interests of the comparability of fiscal years and the transparent presentation of operating earnings; the corresponding extraordinary effects had been offset against an expense of EUR 6.3 million in the same period of the previous year. The extraordinary effects in 2019 above all relate to extraordinary costs of the restructuring in the Experts segment. The Group therefore generated an adjusted EBITDA margin of 8.7% (previous year: 8.3%) in the first three quarters of 2019. The increase in earnings is essentially driven by the Group's Technology and Enterprise Services segments, where total adjusted EBITDA grew by 34.1% to EUR 52.9 million (previous year: EUR 39.5 million). After a significant increase in earnings in the third quarter, the Experts segment generated adjusted EBITDA of EUR 4.9 million (previous year: EUR 2.6 million). Consolidated EBITDA including extraordinary effects rose by 25% to EUR 44.6 million (previous year: EUR 35.6 million). Consolidated EBIT amounted to EUR 21.9 million (previous year: EUR 18.1 million), an increase of 21%.

EBT for the period was EUR 16.0 million (previous year: EUR 15.1 million). After deducting tax expenses of EUR 6.3 million (previous year: EUR 6.4 million), Allgeier generated a profit of EUR 9.7 million in the first nine months of 2019 (previous year: EUR 8.7 million).

Basic earnings per share, calculated on the basis of earnings for the first nine months less non-controlling interests, were EUR 0.57 in the first nine months of 2019 (previous year: EUR 0.65). Earnings per share adjusted for depreciation and amortization due to acquisitions and calculated using normalized taxes amounted to EUR 1.24 (previous year: EUR 1.35) for the reporting period.

At EUR 37.6 million, the cash flow from operating activities before changes in working capital in the first nine months of 2019 was higher than the previous year's figure of EUR 31.7 million. The cash flow from changes in working capital was EUR -13.4 million after EUR -27.3 million in the previous year. Including the cash flow from changes in working capital, the cash flow from operating activities improved significantly to EUR 24.2 million in total as of the end of the reporting period (previous year: EUR 4.4 million).

The Group's investments in operating activities and payments for rental investments amounted to a net figure of EUR 20.7 million (previous year: EUR 17.0 million) in the first three quarters of 2019. Cash used for company acquisitions amounted to EUR 2.9 million in the first nine months of 2019 (previous year: EUR 31.1 million), while the cash outflow for acquisitions in previous years came to EUR 5.6 million (previous year: EUR 0.6 million). The Group received income of EUR 2.8 million from company disposals (previous year: EUR 3.1 million). In total, the cash flow from investing activities amounted to EUR -26.5 million in the reporting period (previous year: EUR -47.3 million).

The net cash inflow from financing activities was EUR 5.9 million in the first three quarters of 2019 (previous year: net inflow of EUR 49.0 million). The Group received a net figure of EUR 23.9 million (previous year: EUR 0.9 million) from the capital increases, which was offset by EUR 8.4 million in total for the repayment of borrower's note loans and bank loans (previous year: EUR 0.3 million). The Group's net interest payments came to EUR 2.9 million (previous year: EUR 1.8 million). The Allgeier Group reported a cash outflow for non-controlling shareholders of EUR 1.8 million (previous year: EUR 0.7 million).

To present adjusted earnings per share, the Allgeier Group corrects the reported EBIT for amortization of intangible assets capitalized in connection with company acquisitions (effects of purchase price allocation), income and expenses from purchase price adjustments in profit or loss and other one-time and prior-period effects. Taking into account these adjustments and applying a tax rate of 35%, the Group generated earnings per share of EUR 1.24 in the first three quarters of 2019 (previous year: EUR 1.35).

| Continuing operations in EUR million (unless stated otherwise) | Q1-Q3 2018 | Q1-Q3 2019 |
|---|-------------|-------------|
| Profit from operating activities (EBIT as reported) | 18.1 | 21.9 |
| Amortization of intangible assets from company acquisitions | 2.5 | 3.1 |
| Other non-recurring and prior-period effects | 6.3 | 6.4 |
| Net finance costs | -2.3 | -4.7 |
| Net income from investments accounted for using the equity method | -0.7 | -1.1 |
| Adjusted earnings before taxes | 23.9 | 25.6 |
| Tax rate | 35% | 35% |
| Taxes | -8.4 | -9.0 |
| Adjusted profit or loss for the period | 15.6 | 16.6 |
| Non-controlling interests | -2.3 | -3.8 |
| Earnings for calculation of adjusted earnings per share | 13.3 | 12.8 |
| Number of shares outstanding | 9,860,391 | 10,328,109 |
| Adjusted earnings per share in Euro (basic) | 1.35 | 1.24 |

The other one-time and prior-period effects include the following items:

| Continuing operations in EUR million | Q1-Q3 2018 | Q1-Q3 2019 |
|--|-------------|-------------|
| Losses on the disposal of non-current assets | -0.1 | -0.0 |
| Losses from bad debt allowances and uncollectible receivables | -1.0 | -1.0 |
| Other prior-period expenses (net) | -0.1 | -0.1 |
| Acquisition expenses | -0.9 | -0.2 |
| Finance charges | -0.6 | -0.6 |
| Cost of stock options issued | -0.3 | -0.2 |
| Income from the translation of foreign currencies and hedging transactions | 0.9 | 0.3 |
| Continued pay and severance payments for former employees | -2.1 | -2.2 |
| Loss of Executive Search from Allgeier Experts Select | -0.4 | -1.2 |
| Loss on GDE participant program and joint participant liability for loans | -0.2 | -0.0 |
| Other extraordinary expenses (net) | -1.5 | -1.2 |
| Total other non-recurring and prior-period effects | -6.3 | -6.4 |

As a result of cash flows from operating, investing and financing activities, cash and cash equivalents grew from EUR 59.4 million on December 31, 2018 to EUR 63.8 million as of September 30, 2019.

Adoption of IFRS 16

IFRS 16, Leases, effective January 1, 2019, was applied in the first three quarters of 2019. This change in accounting caused EBITDA to rise by EUR 12.3 million in the first nine months of 2019 and by EUR 9.5 million in the same period of the previous year. At the same time, depreciation and amortization rose by EUR 10.9 million in the first three quarters of 2019 or EUR 8.6 million as against the same period of 2018, with the result that EBIT increased by EUR 1.3 million in the first three quarters of 2019 as a result of the change in accounting (previous year: reduction of EUR -0.9 million).

The Allgeier Group has adopted IFRS 16 using the retrospective method, whereby the figures for the previous year have been adjusted in line with reporting for the first three quarters of 2019 to ensure the comparability of figures. In addition to the effects in the income statement, the adoption of IFRS 16 also affects reporting in the statement of financial position as a result of the capitalization of leases at their values in use and the recognition of liabilities for future payments over their expected useful lives. As of September 30, 2019, the new values in use capitalized in accordance with IFRS 16 amounted to EUR 63.2 million (December 31, 2018: EUR 62.8 million), and the current and non-current liabilities for leases recognized in accordance with IFRS 16 amounted to EUR 66.5 million (December 31, 2018: EUR 66.7 million). The values in use and liabilities relating to leases are shown in a separate line in the statement of financial position from the 2019 reporting year onwards. In the statement of cash flows, cash outflows from contracts recognized in accordance with IFRS 16 are shown under cash flows from investing activities from 2019 onwards and the previous year is restated accordingly. These payments were shown under cash flows from operating activities in the reporting for previous years.

Key statement of financial position data as of September 30, 2019

In the first three quarters of 2019, total assets rose to EUR 572.9 million as of September 30, 2019 as against

EUR 536.6 million as of December 31, 2018. The main reasons for the increase are firstly the acquisition of FTME and S4M in the first half of 2019, as a result of which the Allgeier Group received goodwill of EUR 3.4 million and other assets of EUR 2.4 million, and secondly the increase in working capital as a result of the growth in operating activities.

The Group's non-current assets rose by EUR 7.4 million from EUR 285.4 million on December 31, 2018 to EUR 292.8 million as of the end of the reporting period. The increase essentially relates to the new goodwill from the acquisition of FTME and S4M. Current assets increased by EUR 28.9 million to EUR 280.1 million over the same period (December 31, 2018: EUR 251.2 million). The change is mainly due to a rise in trade receivables and an increase in other assets. At the same time, cash funds were virtually unchanged at EUR 76.7 million (December 31, 2018: EUR 77.0 million). In net terms, this is largely due to the capital increase of EUR 23.5 million (net) in June 2019 on the one hand and the repayment of loans of EUR 8.4 million, payments for investing and financing activities and higher cash requirements to finance the operating activities of the Allgeier Group on the other. Trade receivables, inventories and other current assets climbed from EUR 174.2 million at the end of 2018 to EUR 203.4 million at the end of the reporting period.

Consolidated equity rose by EUR 33.6 million to EUR 164.2 million as of September 30, 2019 (December 31, 2018: EUR 130.6 million). This development was thanks to the net capital increase of EUR 23.5 million in June 2019 and the profit for the first three quarters of 2019 of EUR 9.7 million. The distribution to shareholders of EUR 5.0 million resolved at the Annual General Meeting of Allgeier SE in June 2019 was implemented at the start of the third quarter of 2019, and therefore did not reduce the Allgeier Group's equity. Nonetheless, as a result of the increase in consolidated equity, coupled with a simultaneous low rise in total assets in the first nine months of 2019, the equity ratio climbed from 24.3% as of the end of 2018 to 28.7% on September 30, 2019.

Current and non-current liabilities rose slightly by EUR 2.7 million from EUR 406.0 million on December 31, 2018 to EUR 408.7 million on September 30, 2019. Breaking this figure down, non-current liabilities decreased from EUR 238.3 million as of the end of 2018 to EUR 229.1 million on September 30, 2019, accounting for 56% of total liabilities (December 31, 2018: 59%). In the first nine months of 2019, current liabilities rose by EUR 11.9 million to EUR 179.6 million (December 31, 2018: EUR 167.7 million). The change in liabilities was due to earn-out payments of EUR 5.6 million and changes on account of operating activities. As a result of the repayment of bank loans, current and non-current interest-bearing financial liabilities declined by EUR 12.9 million from EUR 181.7 million on December 31, 2018 to EUR 168.8 million at the end of the reporting period. All other liabilities (with the exception of financial liabilities) rose by EUR 15.6 million from EUR 224.3 million to EUR 239.9 million in the reporting period.

Acquisitions

On April 2, 2019, Allgeier Nagarro Holding GmbH, Munich, signed contracts to acquire Farabi Technology Middle East LLC, Dubai, United Arab Emirates (FTME), and SOLUTIONS4MOBILITY L.L.C, Dubai, United Arab Emirates (S4M). FTME and S4M are experts in the development of mobile applications to support digital transformation. Their activities focus on computer animation, graphics work, information technology networks and computer system hardware for large customers in the banking, telecommunications and transport sectors in particular. The companies currently employ around 90 highly specialized software developers at the Dubai location. The transaction gives Nagarro valuable access to market- and industry-leading customers in the Middle East, and strengthens its consulting and implementation expertise on local markets.

A maximum purchase price of up to USD 6.5 million, plus around EUR 0.4 million for excess working capital, was agreed to acquire the shares in FTME and S4M. The fixed component of the purchase price of USD 3.3 million was paid in the first half of 2019. The remaining purchase price components are due between 2020 and 2023, depending on the achievement of targets. USD 1.0 million of the variable purchase price is dependent on criteria that preclude the capitalization of this amount in first-time consolidation. The other components were measured on the basis of planning and maturities and recognized at a total amount of EUR 5,265 thousand. Costs of EUR 138 thousand were not capitalized and instead recognized under other operating expenses. FTME and S4M were included in consolidation for the first time as of April 1, 2019. The Allgeier Group received total assets of EUR 2,449 thousand and total liabilities of EUR 557 thousand on the acquisition of FTME and S4M. Customer relationships and order backlogs totaling EUR 959 thousand were recognized in addition to the assets and liabilities recognized in the company's consolidated financial statements under commercial law. Goodwill of EUR 3.4 million resulted from the difference between the purchase price recognized and the net assets acquired. The first-time consolidation of FTME and S4M and the measurement of the acquired assets are not yet complete and have not yet been audited.

Outlook for the fourth quarter of 2019

Against the backdrop of its excellent business performance in the third quarter of 2019, Allgeier SE is standing by the revenue and earnings forecast for the Group as a whole published in its 2018 Annual Report for the current fiscal year.

Unaudited interim information as of the third quarter of 2019

Other Notes

Voluntary interim information

Since the *Transparenzrichtlinie-Änderungsrichtlinie-Umsetzungsgesetz* (TRL-ÄndRL-UmsG – German Act Implementing the Transparency Directive Amending Directive) became effective, the *Wertpapierhandelsgesetz* (WpHG – German Securities Trading Act) no longer requires mandatory quarterly interim reporting for companies listed in the General Standard. The Stock Exchange Regulations of December 3, 2015 of the Frankfurt Stock Exchange only stipulate a quarterly reporting requirement for Prime Standard companies. However, the company intends to continue providing information for shareholders and other stakeholders, and will therefore be publishing voluntary interim information until further notice. This publication is not a complete interim report with the content required by law, but rather interim information published by the company focusing on the significant information.

Accounting policies

The accounting policies have changed as follows compared to the consolidated financial statements as of December 31, 2018: IFRS 16, Leases, effective January 1, 2019, was applied in the first three quarters of 2019. The Allgeier Group has adopted IFRS 16 using the retrospective method, whereby the figures for the previous year have been adjusted in line with reporting for the first three quarters of 2019 to ensure the comparability of figures. In addition to the effects in the income statement, the adoption of IFRS 16 also affects reporting in the statement of financial position as a result of the capitalization of leases at their values in use and the recognition of liabilities for future payments over their expected useful lives.

The results of the FREP audit of the consolidated financial statements as of December 31, 2017 were posted and the previous years were restated accordingly in the first half of 2019 (see half-year financial report of Allgeier SE as of June 30, 2019).

Unless stated otherwise, amounts in the interim information are presented in thousands of euro. This interim information of Allgeier SE as of September 30, 2019 has not been reviewed by an auditor or audited in accordance with section 317 of the *Handelsgesetzbuch* (HGB – German Commercial Code). The accounting entries for the adoption of and subsequent measurement in accordance with IFRS 16 were also not audited.

Number of shares

Allgeier successfully performed a capital increase on June 13, 2019. In the capital increase, partially utilizing Authorized Capital 2018, the company increased its share capital by EUR 997,864 from EUR 10,088,649 to EUR 11,086,513 by issuing 997,864 registered shares against cash contributions with shareholders' statutory pre-emptive rights disapplied. As a result, the total number of Allgeier SE shares outstanding increased in the first half of the year from 10,088,649 on December 31, 2018 to 11,086,513 on June 30, 2019. Options for 45,000 shares were exercised under the stock option program in the third quarter of 2019. Accordingly, the total number of Allgeier SE shares outstanding increased from 10,088,649 on December 31, 2018 to 11,131,513 on September 30, 2019. Allgeier SE received a cash inflow of EUR 426 thousand from the exercise of these options.

Significant transactions with related parties in accordance with section 37w (4) sentence 2 of the German Securities Trading Act (WpHG) and IAS 34.15B (j)

Related parties are defined as persons or enterprises that can influence or be influenced by the company.

In the first nine months of 2019, the Allgeier Group purchased services in the amount of EUR 9 thousand from the subsidiary accounted for using the equity method, Talentry GmbH, Munich.

Allgeier SE acquired a used company car from Initium AG, Munich, for EUR 10 thousand.

Furthermore, members of the Supervisory Board performed consulting services in the amount of EUR 3 thousand (previous year: EUR 0 thousand).

Business relationships between all companies included in the consolidated financial statements were fully eliminated in the consolidated financial statements.

Dividend

At the Annual General Meeting held on June 28, 2019, Allgeier SE resolved to pay a dividend of EUR 4,968,725 in total from its net retained profits for fiscal 2018 of EUR 16,588,280.41. There were 9,937,450 shares entitled to a dividend of EUR 0.50 per share. The dividend was paid to Allgeier SE's shareholders in July 2019.

Basis of consolidation

In the first three quarters of 2019, the number of consolidated companies in the Allgeier Group decreased from 88 on December 31, 2018 to 85. In addition to the two companies acquired in April 2019, FTME and S4M, the company founded a subsidiary in Thailand with Nagarro Company Limited, Bangkok. On the other hand, the number of companies was reduced by the merger of GRC Partner GmbH, Kiel, Nagarro Testing Services GmbH, Dresden, Goetzfried Professionals GmbH, Wiesbaden, Allgeier Productivity Solutions GmbH, Düsseldorf and GDE Holding GmbH, Munich, and the liquidation of iQuest Tech Labs SRL, Cluj-Napoca, Romania.

Segment disclosures

The prior-year figures shown in segment reporting have been adjusted in line with the reporting on the first three quarters of 2019 for reasons of comparability. This relates to the effects of IFRS 16, effective from January 1, 2019, and the adjustments resulting from the FREP audit.

Supplementary Report

On November 5, 2019, Allgeier SE reported in an ad hoc disclosure that the Group is aiming to spin off its global technology and software development business and to float it independently on the stock market. In an ad hoc disclosure dated September 12, 2019, Allgeier had already reported that the Management Board was considering spinning off the company's technology and software development business with the approval of the Supervisory Board.

In the resolutions adopted on November 5, 2019, the Management Board, with the approval of the Supervisory Board of Allgeier SE, decided the strategic reorientation of the Allgeier Group. Specifically, an independent listed company is to be created as an innovative full-service provider and global player for software engineering and technology solutions by way of spin-off from Allgeier SE. This new business unit is to be developed on the basis of the Nagarro business organization model, under which Nagarro has integrated six acquisitions in six countries.

With Nagarro at its core, the business unit is to consist of the following other Allgeier companies that are driven by the global trend towards digitization not dependent on any one industry: iQuest, operating in Romania, Switzerland,

Germany and Poland; Objectiva, operating in the US and China; and the SAP business of Allgeier Enterprise Services, operating in Germany, France and Denmark. These companies currently have more than 7,000 employees working on projects for customers in 25 countries. According to the current assessment, the business unit to be spun off would account for around 50% of the Allgeier Group's revenue for the current fiscal year with an EBITDA margin of between 11% and 12% on a pro forma basis.

The aim is to propose a resolution to this effect to Allgeier's shareholders in 2020, with the business unit to spun off and floated independently in the second half of 2020.

Allgeier SE will continue to develop its other business units.

Legal Notice

This interim information of Allgeier SE as of September 30, 2019 contains forward-looking statements that are based on assumptions and estimates made by the management of Allgeier SE. While the management believes that these assumptions and estimates are accurate, actual future developments and results could differ significantly from these assumptions and estimates owing to a variety of factors.

These factors include, for example, changes in the general economic situation, exchange rates, interest rates and changes in market trends and the competitive situation. Allgeier SE provides no guarantee that future development and the actual results achieved in the future will be consistent with the assumptions and estimates expressed in this interim information and assumes no such liability.
